

Textiles Project

Yr 7 Tech Mandatory

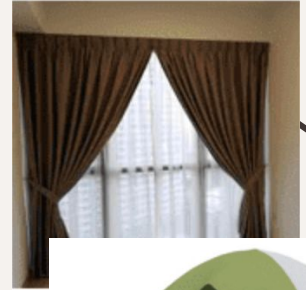

What are Textiles?

What are Textiles?

Textiles are materials made from fibres or yarns and can be woven, knitted or felted. It is any material that is made from fibres or yarns.

Textiles can be used in fashion, interiors, medical surgeries and automobiles.

This could include; fabric, rope, carpet, clothing, furnishings.

The Project:

Interior Design Cushion

You will design and create a decorative cushion for a lounge or bedroom space.

The cushion must feature an appliqué design (a piece of fabric sewn onto another to form pictures or patterns).

The design of the cushion must focus on aesthetics, creativity, have a theme and a colour scheme.

The image features two thin, dark horizontal lines that span the width of the frame. Each line has a smooth, curved end on the left and right sides, creating a subtle, elegant border.

**What is a
moodboard?**

What is a moodboard?

A moodboard is a visual collage that helps you explore ideas and show inspiration for a design.

A moodboard should:

- Have lots of images
- Can include small amounts of text
- Help plan the colour, theme and style of the project
- Communicate your creative vision for the design.

[illegible]

WAGOLL

Your Mood Boards Requirements:

Your Mood Board Must Include:

1. At least **20 images**
2. A **clear theme** or **colour scheme**
3. Images that relate to your **intended cushion design**
